

**2018-19 Board of Directors
Candidate: Susan Stone
First Vice-President**

I have been employed with governmental organizations since 2008. Sitting in various positions throughout those years I have been responsible for working with finance and budgets for multiple departments. I have worked closely with Public Works, providing Supervisors with budget assistance, scheduling of training and travel arrangements for employees. I kept records of all employee certifications and made sure that if continuing education hours were needed that those were scheduled and completed within the necessary time frame.

In addition, I would schedule necessary on-site classes to educate staff for safety and emergency situations. I assisted with Emergency Management and Disaster Preparedness updates and planning, reviewing and revising the plans as needed for each season. Making sure duties were assigned and each member of the team was clear on their responsibility.

I am the sitting VP on the P.A.C.E. board for this fiscal year, and will hold the office of President for year 2018-2019. I feel I will be an asset to the F.A.C.E. Board as I am dedicated, organized, and work well with others. I have history in scheduling, training, and working with large groups of individuals. I am motivated, outgoing, and hard working.

I am married and my husband and I have six children and six grandchildren. We enjoy going to the beach, antiques, singing and spending time with family.
