

## The American Association of Code Enforcement

### has a new website address!!

After many years of using aace1.com, we can now be found at [www.aace1.org](http://www.aace1.org).

AACE has been undergoing some changes and new perspectives this year. With the expiration of our .com domain name our web host company, Affiniscape, is assisting us in becoming .org for the future.

You will not see any problem with this change. Everything will remain the same. We apologize that the site was not accessible for a few days while we attempted to renew what we had. We needed the assistance of others that we were unable to receive and we did not want the site unavailable to our members any longer.

**You may temporarily find links that may not have been converted yet. We are working on getting all of those transitioned to the new address and will have them all completed as soon as possible.**

Please update your records with our new information and please share it with others.
